SUMMARY

Operations and technology lead who helps small, non-technical teams use their tools well and safely. I was hired to bring AI into a small nonprofit, and I run its systems and data. Six years across operations, project management and running my own studio, plus full-stack engineering training.

EXPERIENCE

Operations Coordinator, Dance/NYC New York, NY · April 2026 – present

- Cleaned 200,000+ fields of CRM data in Neon One using Python, removing duplicates and empty accounts so newsletters and outreach go to accurate lists.
- Log and reconcile donations in Neon One, run grant and award payouts through Submittable and manage invoice payments in Bill.com.
- Wrote our AI governance framework covering policy, training, equity, funding and rollout, including the rule that donor and member data never goes into an AI tool. Presented it to the Executive Director.
- Set up and own the org's Claude Team workspace: data settings, access, onboarding and privacy-focused project workflows.
- Administer Google Workspace, Notion, Fathom and Submittable for a team of 10, and built the org's internal systems and trackers in Notion.
- Support board operations, development and HR, handling confidential staff and donor information.

Founder, InLine Access Studio Remote · 2024 – present

- Run a one-person studio doing fixed-scope work in AI integration, WCAG accessibility and data visualization.

Web Developer Consultant (contract), Digital Counsel Remote · 2025

- Designed the content structure and data schemas for an architecture firm's site on Sanity CMS.

Production Manager, Workspace11 Brooklyn, NY · 2021

- Built and led a new finishing department from the ground up, connecting design intent to production.
- Introduced standard documentation and scheduling, raising team productivity by 30%.

Operations and Production Manager, SHW (formerly Still House) New York, NY · 2018 – 2020

- Ran day-to-day income and e-commerce operations in Shopify, growing online sales by 15%.
- Managed vendor relationships and cross-team communication, contributing to a 20% rise in revenue.

EDUCATION AND CERTIFICATIONS

- BFA, The Cooper Union, 2019
- Full-stack Java program, Tech Elevator, 800+ hours, 2024
- Deque Digital Accessibility Scholarship · IAAP accessibility certification, in progress

SKILLS

AI governance and enablement: acceptable use policy, tool evaluation, staff onboarding, plain-language guides, rollout planning

AI automation: n8n agent workflows for email sorting and form submissions into Notion

Operations: process documentation, data cleanup, access and permissions, vendor management, scheduling

Tools: Claude (Team admin), Microsoft Copilot, Google Workspace, Notion, Neon One, Submittable, Bill.com, Fathom, Shopify

Technical: Python, SQL, JavaScript, TypeScript, React, WCAG 2.2

Selected projects: Can I Use AI for This? (AI policy checker, Next.js). n8n Automations (security questionnaire helper).
